

SUMMARIZE

When you **summarize** a narrative, you briefly describe the major plot points. A good summary describes events in the same order as the original narrative and omits details that are not important to the plot.

Directions: As you read *Le Morte d'Arthur*, use this chart to summarize the main plot developments. An example has been done for you.

Passage	Summary
lines 1–6	Arthur sails to France, where Launcelot has settled, and attacks Launcelot's lands.
