

Listening and Speaking Workshop

GIVING A PERSUASIVE SPEECH

You can add power to your persuasive essay by presenting it as a speech.

Directions: Turn your essay into a script. In the first column of the chart, rewrite the parts of your essay that you want to include in your speech. Highlight words you want to stress, and indicate how you will stress them in the second column. Make notes that tell you when to slow down, talk louder, or include gestures. Also mark your script to show when you will include visuals.
