

Media Literacy: Illuminated Texts

PRODUCE YOUR OWN MEDIA

You can create your own illuminated poem.

Directions: Choose a poem—your own or one you’ve read—and create an illustration to accompany it. Make sure your image fits the theme or theme of the poem you’ve chosen. Remember to:

- Determine how closely your illustration will tie to the specifics of the poem or if you will create your own vision.
- Decide what art elements will best convey the meaning of the poem.
- Consider how someone viewing your illustration will understand the connection between the text and the images.
