

# Media Literacy: Documentary

## PRODUCE YOUR OWN MEDIA

You can create your own voice-over script to introduce a historical documentary.

**Directions:** Choose a time period, either from the distant or recent past, that was marked by widespread change. Research the time period, and plan how to convey your views through the tone and pace of your delivery. Use the chart to create a voice-over script that introduces an imaginary documentary series.

Script Text	Notes (Camera movements, visuals)
